DETAILED ACTION

Response to Amendment

The Amendment, filed on February 23, 2007, has been entered and acknowledged by the Examiner.

Cancellation of claim 2 has been entered.

Claims 1 and 3-10 are pending in the instant application.

Allowable Subject Matter

Claims 1 and 3-10 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a light-transmitting resin and minute regions, said minute regions being dispersedly distributed in said light-transmitting resin and having a birefringence different from said light-transmitting resin, wherein at least one of said light-transmitting resin and said minute regions contains, at least one luminescent material.

Regarding claims 4-6, claims 4-6 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 3, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 3, and specifically comprising the limitation of a light-transmitting resin and minute regions, said minute regions being dispersedly distributed in said light-transmitting resin and having a birefringence different from said light-transmitting resin, wherein at least one of said light-transmitting resin and said minute regions contains at least one luminescent material, wherein said at least one luminescent material is a

phosphorescent material that absorbs any one of ultraviolet light and visible light and emits visible phosphorescence.

Regarding claim 7, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 7, and specifically comprising the limitation of a light-transmitting resin and minute regions, said minute regions being dispersedly distributed in said light-transmitting resin and having a birefringence different from said light-transmitting resin, and at least one of said light-transmitting resin and said minute regions contains at least one luminescent material; wherein said at least one luminescent material is a fluorescent material that absorbs any one of ultraviolet light and visible light and emits visible light.

Regarding claims 8-10, claims 8-10 are allowable for the reasons given in claim 7 because of their dependency status from claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
